- Motion Sensing Technology
- Departure & Arrival Reports
- Monitor Location & Movements

How Our Tracker Is Unlike Any Other

	PingMaster5000 Tracker	Other Trackers
Battery Capacity	5,000 reports (pings)	1,800 - 2,000 pings
Battery Lifetime	10+ years on 1 ping / day or 7-8 years on 2 pings/day	5 years max. on 1 ping / day or 2.5 years on 2 pings/day
Theft Alerts	Instant text and email alerts. Automatic switch to 5-10 min pings	Only at next daily scheduled ping. Switch by hand to 15-20 min pings
Motion-Sensing	Yes, no extra charge. Provides Speed, Direction, Starts/ Stops. Custom programming filters out false theft alerts.	Rarely motion-sensing models cost more and often give false theft alerts (for yard moves, gusts of wind, etc.)
Back-up Cellular Locating	Yes, when GPS satellite signal is poor	No

1 Minute Install

10+ Year Battery

Prepaid GPS

Geo-Fence Alerts

Concealable

Weather-Proof

PINGMASTER 5000 GPS / LTE TRACKING DEVICE

PingMaster 5000 GPS / Cellular Tracking device.

[Read More](#)

SKU: D2EPM5000

Categories: [Accessories](#)

Product Description

PingMaster 5000 GPS Tracking Device ONLY.

You will add the subscription plan of your choice.

#1: Instant Theft Alerts

No other wireless tracker can:

- Detect theft instantly. The PingMaster5000 has MoveGuard motion-sensing technology, which enables it to react to a theft **as it happens**
- Other trackers react to theft only after the tracker wakes up on its next scheduled ping (up to a full day after the theft)
- Our "One-touch Security" feature lets users arm the tracker like a car alarm, so if their trailer moves while the alarm is armed, the tracker instantly alerts the user and shifts into aggressive tracking mode automatically. Usable from the mobile app on iPhone or Android.

#2: MoveGuard Motion-Sensing Technology

Our pioneering motion-sensing technology will **ignore unimportant movement** like yard moves or gusts of wind, so you'll only receive alerts for important movement that you care about, like theft, deliveries, stop-times, etc. You can also create a perimeter "geofence" around any important area to monitor, like your yard, home, or a trip destination. As soon as the tracker exits or enters the geofence, you will automatically receive an alert, and the tracker can automatically reset to a different tracking interval.

You'll see with every ping if the trailer is parked (and for how long) or if it is in-motion (and in which direction, and at what speed). No other wireless tracker can do all this!

#3: Extra Long Battery - Guaranteed for 5000 pings

Industry-leading 5000+ ping guaranteed battery life, which is over 12 years on 1 ping per day (or about 7 years on 2 pings per day). That's more than twice what competitors' trackers offer. This means that our tracker will last longer, while providing better monitoring and alerts. You can easily change the ping settings on our app, from 1 ping per day to a ping every 5 mins.

GPS Provider	Battery pings	1 Ping per day	2 Ping per day	4 pings per hour	6 Pings per hour
PingMaster 5000	5000	Over 12+ Years	About 7 years	52 days	35 days
Competitor	1825	5 Years	2 and 1/2 Years	19 days	NA

#4: Departure and Arrival Reports

Now you can easily track :

- Which trailers are out for delivery to pick up or drop off a load

- Verify every delivery with a 3rd party GPS timestamp
- Start and stop times of employee shifts and breaks

#5: Unique in the Market

Cellular Triangulation Mode When There Is No GPS: receive approximate location information when other trackers cannot offer any location, like when the tracker is indoors or out of range of satellites, based on the nearest cell phone towers.

Install Installation and Low Profile: Just place the trackers **instantly** on trailers in seconds. It's profile is only 3.6 in X 3.3 in X 1.3 in

24/7 Tech Support: 365 days/year
