Product Description

Brand: Ultimate Trailer Jack

Lift Capacity: 1500 lbs

Static Capacity: 2500 lbs

Side Mount with Brackets

Bolt on

Side Wind

The Ultimate Trailer Jack was designed for the ultimate convenience, speed, and simplicity. Just pull the easy-to-access release pin to drop the entire jack tube down for quick adjustments. Even better, there is no longer any need for space fillers with this jack, so put away the drop leg, blocks, and bricks! With this jack, setting up your trailer at your destination has never been breezier.

The jack features an outer tube that extends to provide extra lift. Pulling the release pin and dropping the outer tube gives you up to 12" of lift, ensuring a solid foundation with the ground. The easy grip top wind handle allows for an additional 15.5" of travel by cranking the jack. Keep setting your worries aside with the Ultimate Trailer Jack because its compact profile keeps the jack flush with the trailer frame when it's retracted. You no longer have to worry about catching your jack on uneven terrain while you tow.

The Ultimate Trailer Jack is easy-to-use, quick, and dependable. If you're looking to spend less time setting up your trailer and more time doing the things that make you happy, then the Ultimate Trailer Jack is for you.

Fastway 6" Flip Jack Foot Automatic Folding Trailer Tongue Jack Foot 2-1/4 Jacks

Fastway 6" Flip Jack Foot Automatic Folding Trailer Tongue Jack Foot 2-1/4 Jacks

[Read More](#)

SKU: D2E88-00-6500

Categories: [Jacks](#)

Product Description

FastWay Flip Jack 6" Flip Jack for 2-1/4" Jack

Measure the upper section of your Jack's Tube Diameter, should be 2-1/4" for this part to work.

It's time to stop fumbling with a stack of wood blocks to stick under your tongue jack. The Fastway® Flip™ jack foot extends your jack by six inches and is the only jack foot that is completely automatic. The Flip puts itself away, with no springs, cables, pins, or clips required. It drops into place automatically when you extend your jack, and tucks up out of the way automatically when you retract it for towing. With a Flip jack foot there is:

- No bending over or kneeling
- Nothing extra to store or keep track of
- 50 cranks saved both up and down
- No tinkering - automatically locks down and flips up

Get a Fastway Flip jack foot today and say goodbye to your tongue jack hassles.

The Flip jack foot attaches permanently to the bottom of your jack's inner tube. As you extend your jack, the Flipjack foot extends down, and locks into place. When you raise your jack, the Flip jack foot automatically tucks up under the frame and out of the way!
